**SUPPLEMENTARY INFORMATION:**

**A. Purpose**

The Art-in-Architecture Program actively seeks to commission works from the full spectrum of American artists and strives to promote new media and inventive solutions for public art. The GSA Form 7437, Art-in-Architecture Program National Artist Registry, will be used to collect information from artists across the country to participate and to be considered for commissions.

The Art-in-Architecture Program is the result of a policy decision made in January 1963 by GSA Administrator Bernard L. Boudin, who served on the Ad Hoc Committee on Federal Office Space in 1961-1962.

The program has been modified over the years, most recently in 2009, when a requirement was instituted that all artists who want to be considered for any potential GSA

commission must be included on the National Artists Registry, which serves as the qualified list of eligible artists. The program continues to commission works of art from living American artists. One-half of one percent of the estimated construction cost of new or substantially renovated Federal buildings and U.S. courthouses is allocated for commissioning works of art.
